

Eddie Sr. Saiz

President

Eddie was born and raised in Las Vegas, NM. He has been a resident of Albuquerque for 40 years.

Beginning his early career as a welder, Eddie learned many parts of the Natural Gas Construction Industry providing him with over 33 years' experience in Supervising, Managing, and Project Management.

Becoming an expert in all phases of Project Development and Execution has consistently helped him achieve goals and expectations on every project.

In 2012, Eddie and his son, Eddie Jr., decided to start their own business, Dub-L-EE, LLC. Owning his own business has enabled Eddie to utilize all his expertise in managing large, complex, and potentially (safety critical) projects.

Since he began ownership of Dub-L-EE, Eddie has obtained his GF-9 and GB-98 certifications which will also allow for any and, all construction needs to be met. In 2017 Eddie became a qualified Small Minority Disadvantaged 8(a) firm. In the first year of Eddie's program, he secured over 4 million dollars in government set-asides and will work diligently to continue to make all his clients raving fans.
